formation?

The government claims that Clurin Swan son still owes it \$29.42.68 on her income tax for 1922 Cloria having 'deducted \$11.191.55 spent for clothes and \$735.61 for shoes and \$18.375.81 spent as entertailment for musicians refreshments and servent hire to musicians refreshments and servent three has no business in the picture game. Sho can make a lot more by teaching multimillionairos how to make tax returns.

A Right Way and a Wrong
The report of the state extrainers who
have been gold, over the records of the city
justifies the suspicion which has been entur
tained for some time by the organized indoorists of Marion that considerable portions of
the proceeds of the automobile Heanes and
procline are funds were being therable, and the proceeds of the automobile ficuses and cosoline tax funds were being filefully applied to other than the street repair and maintenance fund. The report further alsolobes that many expenditures for labor and anticrial have been filegally made.

As is generally known since the matter has brought home to use in the purchase or at least the contract to purchase the old traffic lights the law stipulities that no purchase or access at \$500 cm he leastly made.

cliase in excess of \$500 can be logally made without advertising for and receiving bids yet the examiners find that during the period ofor which their exemination extended—I eb rnar, '7 1927 to April 28 1728—expendi tures to the amount of \$11 513 59 were made in violation of the law During the period stated the examinors

report the city received \$26 298 25 from auto Neensa sales and \$38 (33 from the Ensuline Revenue from these sources, the exam hold can be legally used only for the maintonance and repair of improved streets and conditional within the city limits and can not legally be transferred in whole or fort from the street repair to ! maintanance fund to any other fund. In the meaning of the improved reads are those which are sur faced or those which have foundations readfor surfacing Of the total of \$54 611 25 received as the city's share of automobile if canso sales and the gasoline for the examiners report having found \$11 071 88 diverted to other city limits and they order the various aums making up that (oth) which were thus diverted to other funds paid lack to the street topair and malutenance fund from the funds to which they were diverted

There were other matters of minor covered in the report but the Hespit expendi-tures and the Hiegal diversion of Heansplanies

and gasoline the received of these purposes than those prescribed by law were the chief There are two ways of handling a city s regentles—a legal way and an illest way a light way and a wrong. It is apparent from the report of the state examiners that in illegally expending \$11 513 69 and in illegally diverling \$11 071 58 a total of \$22 585 67 our offs authorities went the wrong was and violated the law in transactions in the last

violeted the law in transactions in the last named amount. In the light of the report showing diversions of the resolute lax and automobile it cense saler receives the people of Marion will be better able than that have been here. Indicate to understand the showings made in certain other funds of the city which up to the illing of the report were shrouded in more or less mystery.

The Frouble with the Railroads

The frouble with the Kamirogua I of la may age chiro dily capte of the capt of

And then taking up the question of the comparative worth of railroad managements of the pist and the present the editorial goes on to say. It is true that the prospects of the railroad industry are not as rosy now as could be wished. But why is this so? Is it due to failure by railway managers within vicent years to devolon manage and operated. as could be wished that why in this so? Is it due to failure by railway managers within recent yours to develop manage and operate the properties with as much public spirit, courage and efficiency as their predecusous? On the countrary allowing for the conditions under which they have worked, the rrilway managers of this generation are to be credited with achievements equalilar or surpassing those of any earlier generation. In spite of advarse conditions they have invested as much capit d and used it with such skill they have been so successful in gaining the cooperation of shippers and employer, that railway properties have been put in an procedentedly good condition that railway service has been made better than over before and that in propurtion to the ways and prices they must pay the railways are more concentrally operated now than ever before since 1829 the average speed of freight trains has been increased twolty-dwp per cent, the average number of freight ears in each train thirty four per cent and the average hours service rendered by each train in earrying freight thirty eight per cent while the amount of two consumed in proportion to the source rendered has in an reduced twenty two per cent. These who were train must admit that the

sortice rendered has here reduced twenty two per cent.

Those who are fall must admit that the steam and electric reads of the country are the only forms of transportation for the cirrying of passengers and freight not added by the taxphyers. Not only that but controlled and harrassed by government regulation which estors many recommons of management they are heavily taxed—a burden which grows greater yearly—to assit in the operation of other forms of transportation competing with them. They must buy their rights of way and maintain them they must exect and maintain them that may must exect and maintain their states and pay tures on such rights of way and other realty wills channels are maintained for ocean lake and river steamers and huges by the government highways are built and maintained by tederal shale and counts covernments for the bax lines and manifelyalities buy and maintain alreports for aircraft. And on top of all this they are mids the football of the politicious their rates being hold down of lowered to help other industries which may be able to commund enough voice to them. liters that herein is the great trouble withe reflecade of the United States today

Speaking about whispers we are led by the open biller of Mr W K Muc; to the conclusion that Mr Irinkin D Rosswolf trill of the Democratic ticket in 1920 (and any stunch at the whispering Kame

any shutch at the whistering kinne.

Why should hum mity worry over the fret that the post offle department is planning to increase the speed of main thous thirts five faller an hour looking to a twenty four hour service from coast to coast. Mo to of our creditors are local

Marshand stated that Senator Cartis the Republicin candidate for thee president—was seen it limited take track with a buttle of liquir in his picket—the Marsland sen alors friend might not make any mistate by taking him to in affentst.

THE WELCOME TRUANT.

#### Apple a Factor in Health

BY ROTAL 5 COPERAND AF D

We are always abut when the next applies come is market i an reminded of this because just before beginning, is write today I came from the creditard cutting a decleuse apply one of the first of the season. By the time this article is printed the markets will be juitted with a hundred sarbetten of the delicious fruit.

I he apple is good for health I don't care how you take it whether cooked or raw. It possesses excitate food substances which promote the physical welfare

sarieties of the delicious fruit.

In applo is good for health I don't care how you take it whether cooked or raw. It foreseese extents food substances which promote the physical welfare.

It has a though for our food merely to nourship as or simply to satisfy the appelite. Our meals are not sufficient or well chosen unless they provide the minutes required by the various tiesque the although or well chosen unless they provide the animals required by the various tiesque the although and certain attinutating effect. The might carrier substances and properties which are of peculiar value to the body. I leave bear tent in minut as you make your purchases.

It is a wonfer to me that apple sauce but no py the acids which have certain attinuted to the body. I leave bear tent in minut as you make your purchases.

It is a wonfer to me that apple sauce but no py the acid the world that of course there is an appeal in these carefully. In all your I was interested in studying the report of a food marketing research organization like council minutes a survey of the fate of applies reached but here are some of their.

I can not sure as to how its conclusions were reached but here are some of their.

Morn applies are caten in high splitted families than 13 minute other chas the some group is aditionally and is not found of picts or new appless and salmits and is not found of picts or new appless and salmits and is not found of picts or new appless and salmits and is not found to further and postoses bread and butter. There must be variety in the cating you must be completed to their and postoses bread and butter. There must be variety in the cating you must be completed to their antite, line the care is also are called by a proper survey. It is and a postose bread and butter. There must be variety in the cating you must be completed to their affect in minutes and a fresh front and, into pudding or apple some of the picts of the property of the picts of the picts. The picts is the picts of the picts of the picts of the picts

They were making a talkie-movie when a supervisor called out. Retake on that scene.

Why said the director there's nothing wrong there yes there is replied the super I couldn't hear the mail k in swhmming.

It who has never changed his mind said it! Ho the arge of Ch'andoun is one who thinks he can hold perjectual summer by refusing to tear off the next leaf on the catendar.

Did you study your lessons when you were a buy?

I did answered Senator Sorghim But I dont know whether that fact helps me in politics. It I had were those old fashloned schoolbooks which sail Honesty is the best polity and which sold simple retrictism without any side lines of propagand?

# In the Woods. By 6 ARRETT P. SPIAIS In actumn after much of the foliase has filled, so that the fores visual become more open while he ground is carpecel with hown and yellow bears pleasan to waik my on and responding with crisp whyspers to the footegs comes the hear time to visit the woods. Anner also are hardly aware of the advantage which tirely fossess over the la habitants of western Europe in the greater structrigues of our forests. In the Ameri tan moods that I have known since boyhood the ground under the trees is far less im peeded with tangled and trophlesoms under you he had the der is drive and mo e pleaant than is the forests that it have seen abroad I do so treak of the parse where everything strucks too much of artificiality, nor of the size to reak of the parse, where everything strucks too much of artificiality, nor of the size of the woods that are left grounding he pully to supply freewood to the surrounding half is one and for other communal purposes. The growth of these woods

In the Woods.

and delightful ghades that are so con 'mon in American awada sepecially where the country is a little hilly. The zira of thees are similar but they differ in variety appearance and habit. The furgoean eim is often a mighty tree but never to be compared in stacciul majerty with the giants of New Longland and New York. They have birches ever white birches but no. I've ours Fortces ofter oars heeches, maples locusts hurnbamms and mores years poplars. Allows cypresses ashes wainuts chesinuts hazels and a great deni of miscellaneous undergrowth abound and some of the trees are magnificent specimens but assembled in woods they never uppear to me to retain the individual dignity that characterizes the 'arger trees in an American forest.

Our chattering companionable red squirrel whose voice echous in my ears white I write bringing viridly upon the stage of memory the atmosphery the colors the cound, and the restless life of our meom parable October woods has his counsin in furform—but what a cousin it difficult and tail feeding on s ruce cones seathing about in dense eversered tops withe large and the cipping rathing viacity or fear less curiosity of his superior in America. An in a groy squirrel.—Per least none that I have ever seed.

kind He had kined 215 wild boars in his litetime
But if we have no boors we have a pleuty of the game for hunters. It is not that, however which constitutes the true hire of the woods. It is the life of the trees and the habsitants of the trees it is the stimulation derived from clove contact with unspolled nature, perchance it is fundamentally an in heritance of memory from far off ages when ours too was a tree dwelling race—Copyright 1928 International Feature Service Inc.

The Victoria falls of the Zambesi river in Africa exceed all other waterfalls. The life level of Jamaica continues to grow for months after it has been unrooted. The area of the great Sahara desart is almost exactly the same as that of the United States.

grow for months after it has been unrooted. The area of the great Suhara desart is almost exactly the same as that of the United States. The Guit of Newton coast line of the United States is nearly 1000 miles longer than the Pacific coast line.

Silly once meant blessed. The English writers of several centuries ago frequently alinded to the silly child Jesus. Poe who sold the Raven for \$25 never had the good fortune to save second celliton of his posms wanted. The first national convention for the choice of a presidential candidate of the Democratic party was hold at Haltimore in 1832 and resulted in the nominaries of Andrew Jackson by acclaniation. The first complete party platform was not adopted until the third authoral convention which was held in 1840 also at Haltimore.

000 highly skilled workers, who own stock in this company valued at more than \$6,000,000.00, are responsible for the outstanding quality and value you find in Richman's Clothes. And the Richman factories in Cleveland and Lorain, Ohio, provide them with the finest manufacturing facilities known to the clothing industry.

HESE new Richman suits and topcoats for fall not only have the style and appearance of expensive clothes, but they are made of the finest materials, procured through our immense cash buying power-they are tailored with exacting care from the first stitch in the hidden inner construction to the sewing of the last button. They are fine clothes in every sense of the word-clothes you may depend upon to hold their style and shape; to give you longer than usual wear. And our huge stocks permit unlimited choice-every new weave and shade, every good style, sizes and proportions to fit every man correctly

Made in the Richman Factories and Sold Direct to You at One Price-\$22.50 for Any Suit, Topcoat, or Tuxedo Suit You Choose—No Middleman's Profit.

but those rooms and must leaf.

Does It pay to be penny-wise in construction cost and pound-foolish with maintenance," was asked.

So the community studied pavenients impartially as a banker studies an investment. It considered post and present performance of all pavenients—inding comfort—the effect of weather—increasing traffic—appearance. And brick streets were chosen.

Brick pavenient as built today is smooth-riding, safe, easy on the eyes. Densest, tougheat road surface, it resists both weather and traffic punishment. Thus it lasts over 20 years with few repairs. For further information write National Paving Brick Manufacturers Association, 14th and F. Streets, Nathington, D. C.

SANDE STARTS HIS NEW CAREER

#### MEN WHO GUARD THEIR HEALTH SMOKE CIGARS

# 92% of the Principal Executives of the American Telephone and Telegraph Company are Cigar Smokers

La Palina is America's Largest Selling High Grade Cigar Loyer A MILLION A DAY | its outstanding popularity is the best proof of its unusual quality

> Tune in on the I a Palma Club Smoker each Sund is night at 8 30 over the Columbia Broadcasting System

AS a result of a survey, at has been acceptained that 92% A been received that 92% of the principal executives of the American Telephone & Talk graph Company are eight smokers their position and work requires the clear mind and the stendy nerves that are so important to good health.

A cigar is smoked for caste—not to gruffy a mere teerous hibit So it is smoked slowly—one is not lighted from the but of another, nervously or hur riedly And a cieur does not affect the

throat, since to quote a prominent New York throat specialist.

The basic cuise of much throat trouble is the irritating burning action of hot smoke upon the tender tissues of the throng 'Cigar smoke is cool because

the tobacco burns slowly, and the smoke is filtered and cooled as it is drawn through the body

Make this test for a week-smoke yourself feeling better, without couch or throut structuren, with steadier nerves, increased virility and less of that used feeling

Mike the test with La Palinas They combine for the first time in one cigaran extreme mildness with a rise richness of taste and

HE funeral to us is a sacred responsibility. I one departed deserves every detail of regard. Those bereaved need comfort, aid and assistance: above all, relief from the work and the worry and the anxiety a funeral always brings. We, then, conduct ourselves in a most professional manner — our high duty in mind; and not for any gain we can get, but for the good we can do. We give our service most respectfully, and in every way of beliefulars — to all these we warre at funeral time.
